Tel: 020 8546 0661

Email: andy@internetgamble.org

- Tea, coffee and biscuits provided. Bring your own packed lunch

Roger Patterson is organising the Local Queen Programme which is designed to encourage beekeepers to produce bees that suit their area. In this event he will cover methods of queen rearing that will suit one person on their own as well as larger groups such as a BKA where possibly the teaching apiary can be used for queen rearing. He will encourage beekeepers to assess their colonies and rear queens from those showing the required characteristics.

Plenty of free parking on the adjacent roads. Vera Fletcher Hall is a short walk from Thames Ditton BR station.
